Welcome Fall 2015 Shaw University Student:

This comes as a reminder that Shaw University requires all full-time students to have health insurance as a condition of enrollment. All full-time students will be enrolled in a Student Accident & Sickness Plan provided by EIIA insurance. The student cost for this coverage is $820.00 per semester.

Participation in this Plan is required unless a waiver, identifying primary health insurance coverage is completed and submitted for approval by August 21, 2015. The waiver must be completed online at www.eiiastudent.org/shaw. The online site for waiver request will open June 27th and remain open until August 21st. Students who have questions should contact EIIA plan administrators at (888) 255-4029.

For specific questions pertaining to the insurance plan and/or insurance waivers, please visit the above website or contact EIIA at 1-888-255-4029. You may also submit a question by clicking the “Contact Us” tab or the “Help” button on the homepage of the website.

Please Note: The University does not provide or approve insurance waivers; students seeking a waiver for insurance must submit their request and obtain approval through the EIIA website: www.eiiastudent.org/shaw.

If the request and proof of insurance is not submitted by the August 21st deadline, the request for a waiver will not be accepted and your enrollment in the University insurance plan will remain effective.
Student Insurance Program

When it comes to protecting your students, EIIA knows that there's more at stake than low premium costs. The good news is, with the unique group-purchasing structure of EIIA, we can provide robust, individualized coverage while still securing low rates, often the lowest available.

With more than 25 years of experience in the student insurance market, EIIA staff provides stability with hands-on service, including new program development, claims advocacy, and provider discount negotiations.

Our program includes:

- Student Accident and Health Plans
- Intercollegiate Sports Plan
- International Student Health Plan
- Seminary Student Health Plan
- Intramural/Club Sports Accident Plans
- Summer Sports Camp Coverage

Scope, flexibility and choice

Currently serving more than 70 institutions, the EIIA Student Program provides a variety of accident and health plans for traditional and non-traditional students including seminarians, domestic and international students, and student athletes.

Most plans provide benefits in excess of any underlying insurance available to the student, however, in the absence of underlying insurance, the plans respond at a primary level.

The Student Insurance Program includes:

- **International Student Health Plan** - The EIIA International Student Plan exceeds the plan requirements mandated by the United States Information Agency (USIA) for J1 Visa students and scholars. In addition to the comprehensive accident and health coverage, it provides excellent medical evacuation and repatriation services.

- **Seminary Student Health Plan** - EIIA offers a comprehensive plan for seminary students and their dependents. The plan was developed with input from seminary students and is available at a very competitive rate.

- **Intramural/Club Sports Accident Plans** - The EIIA Student Program offers a catastrophic plan for intramural and club sports with coverage limits ranging from $3 million to $5 million. These plans have a $25,000 deductible that may be satisfied by the basic accident coverage provided through the club association or the institution.

- **Summer Sports Camp Coverage** - Although most students are gone for the summer, campuses continue to provide educational opportunities to non-traditional and prospective students during the break. EIIA offers medical accident coverage for summer camps and special groups that come on campus.
